

NEPAssist

An innovative tool that assists with the review of Environmental Assessments and Environmental Impact Statements

What is it?

NEPAssist is a GIS application that automates and Web-enables the collection and coordination of information inherent in the environmental review process mandated by the National Environmental Policy Act (NEPA).

What does it do?

NEPAssist provides immediate screening of environmental assessment indicators in accordance with regional decision rules for a user-defined area of interest. These features contribute to a streamlined review process that potentially raises important environmental issues at the earliest stages of project development.

Special Features:

- ◆ Users can digitize features directly from Web-based digital aerial photography
- ◆ Decision rules based on implementation of policy can be automated and Web-enabled
