

GOLDEN EAGLE AQUACULTURE

Producers of a Cultured Coho

Located 125 kilometers from downtown Vancouver, delivering 125 tons of fresh Coho annually to the fresh market.

- ▶ The right technical mix of farm staff is key
- ▶ Fish husbandry knowledge and water engineering skills are key but difficult to find

HARVESTING /MARKETING IS THE MOST
IMPORTANT 7 DAYS OF THE 16 MONTH
CYCLE BUT OFTEN OVER LOOKED

**Off flavour - lack of proper
conditioning**

Stress before harvesting

**Pre and post harvest
temperatures**

At the end of the day the fish must pay for everything

A basic concept often forgotten in the design and operation of new start up production systems

**A BAD DAY FARMING IS BETTER THAN A
GOOD DAY WORKING**
