

RECIRCULATING AQUACULTURE SYSTEMS

September 19–22, 2023

Shepherdstown, WV

COURSE DESCRIPTION:

This four-day course presented by The Conservation Fund's Freshwater Institute will cover the fundamentals of water recirculating systems for fish culture including mass balances to maintain water quality, unit process design, fish health, biosecurity and system operation. Course materials provided to participants include a binder of all presentations and the latest edition of the book, *Recirculating Aquaculture*. The course includes a tour of the RAS facilities at the Freshwater Institute.
