Dear Mr. Robertson:

I refer to your email dated, September 29, 2015, requesting modification of the program instrument for the Georgia-Alabama Land Trust (GALT) In-Lieu Fee (ILF) Program, approved November 26, 2013. This project has been assigned number SAS-2011-00779 and it is important that you refer to this number in all communication concerning this matter.

The modification requested approval of a one-time waiver of the temporal loss fee and administrative fee outlined in the GALT's approved program instrument. The modification also requested the advanced release of 107,385.65 stream credits for sale in the GALT's Withlacoochee Service Area (Hydrologic Unit Codes 03110103, 03110201, 03110202, 03110203, 03110204, 03120001, 03120002, and 03120003).

The U.S. Army Corps of Engineers has determined that your request for a waiver of the temporal loss fee is unwarranted and that request is denied. Further, the Corps has determined that the administrative fee is solely under GALT's purview and not subject to Corps' approval. Lastly, the Corps has determined that your request for release of 107,385.65 advance stream credits is warranted and approves this portion of your modification request. This modification is subject to the terms and conditions of the original program instrument. If this modification is agreeable, sign both the original and duplicate copy. Please retain the original for your records and return the signed duplicate to this office.
